***** IEEE CIT-2015 CFP *****

The 15th IEEE International Conference on Computer and Information Technology

(CIT-2015)

<http://cse.stfx.ca/~cit2015/>

Liverpool, England, UK, 26-28 October 2015

Sponsored by

IEEE, IEEE Computer Society and IEEE Technical Committee of Scalable Computing (TCSC)

INTRODUCTION

=====

CIT has become a major platform for researchers and industry practitioners from different fields of computer and information technology. Each year, CIT attendees appreciate and benefit from multidisciplinary exchanges in computer and information technology. In previous years, CIT has attracted many high quality research papers spanning over the various aspects of information technology, computing science and computer engineering. These papers highlight foundational work that strives to push beyond limits of existing computer technologies, including experimental efforts, innovative systems, and investigations that identify weaknesses in existing IT services.

The CIT-2015 conference is the 15th edition of the highly successful International Conference on Computer and Information Technology, and will be held on 26-28 October 2015 in Liverpool, UK. The goal of CIT-2015 is to provide a forum for scientists, engineers and researchers to discuss and exchange novel ideas, results, experiences and work-in-process on all aspects of computer and information technology.

Liverpool is a fantastic and popular tourist city destination in the UK. Several areas of the city centre were granted World Heritage Site status by UNESCO in 2004. Referred to as the Liverpool Maritime Mercantile City, the site comprises six separate locations in the city including the Pier Head, Albert Dock and William Brown Street and includes many of the city's most famous landmarks.

SCOPE AND TOPICS

=====

Topics of particular interests include the following tracks, but are not limited to:

- Information Technology
- Computer Science
- Signal Processing
- Networking and Internet of Things
- Reliability, Security, Privacy and Trust

- Applications, Business and Social Issues
- Database and Data Management
- Software Engineering
- Microwave and Radar
- System Software and Software Engineering
- Pattern Recognition, Data Mining and Artificial Intelligence
- Information Technology for Biomedicine and Smart Health
- Wireless Communications
- Mobile Multimedia Communications
- Wireless and Mobile Computing
- Future Internet
- Cellular Networks and 5G
- Web Technologies
- Data Science
- Big Data

IMPORTANT DATES

=====

Workshop Proposal	22 May 2015
Submission Deadline:	15 July 2015
Authors Notification:	15 August 2015
Camera-ready Paper Due:	15 September 2015
Registration Due:	15 September 2015
Conference Date:	26-28 October 2015

PAPER SUBMISSION GUIDELINE

=====

All papers need to be submitted electronically through the conference website (<http://cse.stfx.ca/~cit2015/sub/>) with PDF format. The materials presented in the papers should not be published or under submission elsewhere. Each paper is limited to 8 pages (or 10 pages with over length charge) including figures and references using IEEE Computer Society Proceedings Manuscripts style (two columns, single-spaced, 10 fonts). You can confirm the IEEE Computer Society Proceedings Author Guidelines at the following web page: <http://www.computer.org/web/cs-cps/>

Once accepted, the paper will be included into the IEEE conference proceedings published by IEEE Computer Society Press (indexed by EI). At least one of the authors of any accepted paper is requested to register the paper at the conference.
