

# The 10<sup>th</sup> International Conference on Algorithms and Architectures for Parallel Processing (ICA300 2010)

## Call for Workshops

---

**ICA3PP 2010** is the 10th in this series of conferences started in 1995 that are devoted to algorithms and architectures for parallel processing. ICA3PP is now recognized as the main regular event of the world that is covering the many dimensions of parallel algorithms and architectures, encompassing fundamental theoretical approaches, practical experimental projects, and commercial components and systems. As applications of computing systems have permeated in every aspects of daily life, the power of computing system has become increasingly critical. This conference provides a forum for countries around the world to exchange ideas for improving the computation power of computing systems.

Workshops for presenting papers from industrial companies and papers on implementations of systems and services are very welcome. All accepted workshop papers will be included in ica3pp-10 workshop proceeding by Springer-LNCS (pending).

In general, a workshop takes one day, although multiple-day and half-day workshops are welcome. Please send a workshop proposal by Nov. 1, 2009 to Workshop chairs.

The workshop proposal should include following information:

1. *Title of the workshop: International Workshop on ...*
2. *Workshop chair(s): name, affiliation, address, phone and fax numbers, e-mail.*
3. *Brief description of the workshop (several hundred words)*
4. *Expected number of papers to be submitted*
5. *Call for paper of the workshop (draft version)*
6. *Tentative list of program committee members (Name, affiliation, country, email address)*

Each workshop will start to distribute a call for paper after receiving the notification. Papers submitted to each workshop will be reviewed by the program committee and external reviewers of the workshop.
